## “FINALLY!” It’s (truly) “Back-To- School!”

School bells ring and children sing, ‘It’s back to regular school again. That’s what children and parents are saying as School year 2021-2022, begins September 2, 2021.

After an unprecedented lock down and the home-school virtual learning environment, students and teachers are eager to go back to the halls of learning.

Typical anxieties, the kind we all remember, is mixed with uncertainties and familiarity. Yet, children look forward to friends and talking the whole lunch hour, as they catch up. They’ve missed relationships, a big part of learning and growing.

many, yet a precursor for academic performance; It’s Back to School again.. Critical poverty issues were magnified during quarantine. Our children must be secured..

Teens going to high school, after many of the same friends in elementary and middle school, are wondering who will their teachers be? Will they be popular or nerdy? Will they meet new friends, especially of friends their parents will approve?

There’s concern about the new subjects. New teachers for each subject, “But how do I know what I should be selecting,” Josh, our teen reporter, asked. “It’s time to grow up!”

Sports, basketball, football, soccer and wrestling; track; and choir and band. There’s the debate team and the Teachers club and STEM and so many choices.

Parents acknowledge their anxiety, too. The Delta variant is increasing. Covid 19 has not gone away. But being at home, for another semester, is not what parents are seeking, either. They

Dear MPS Families and Staff, I hope you have all had a fun summer with your families and friends.

We had a wonderful time cheering on students at MacDowell Montessori School for the first day of the early start school year on Monday, August 16!

Please enjoy this video recap of the first day of school.

Remember, schools on the traditional calendar start Thursday, September 2.

We are looking forward to cheering on students at Rogers Street Academy that day!

A lot of work has gone into ensuring that our students and staff will have a healthy and safe school year as we return to learning in-person, five days a week.

# WORDS OF ENCOURAGEMENT FROM COMMUNITY THOUGHT LEADERS

*We asked several noted community leaders in government, social service, health, and education to share words of encouragement, guidance and wisdom with students preparing for the 2021-2022 school year. Here is what they shared with them.*

## Dr. Annette Stokes:

"Dream your dream of what you want your life to be and do those things needed to accomplish this in reality. Make your dreams come true.

"Set goals for yourself, use discipline and study to show yourself approved. Be accountable for your actions, seek good guidance and wisdom and most importantly, never give up.

"Success starts in your mind, your thoughts and for many in their dreams. In a dream, you can be whatever you want to be. Your charge is to make your dream a reality.

(continued on page 5)

## Cecelia Gore:

"It may not be easy, but it will be worth it!

"Good luck with the upcoming school year.

"I am very proud of all that our students will be doing and know they will embrace every challenge!"

**Cecelia Gore**, Executive Director of the Brewers Community Foundation

## Sheila Parrish:

"Congratulations students for your quest to study K-12 and secondary education.

"Strive towards higher heights in life.

"This prepares you to meet challenges and achieve goals.

"Always put self-care first while you endeavor towards higher heights. Remember that the only constant thing in life is change which starts with you."

**Atty. Sheila Parrish**

## Dana World-Patterson:

"Dear Students, the journey of a thousand miles begins with one step.

Know that every day you attend school, come prepared to learn, and apply yourself to achieve is a day of victory.

Those successful days become weeks then months of success to take you across the finish line to graduation.

The beauty of the accomplishment of high school graduation is you join the company of graduates that have continued to build their careers and fulfill their purpose.

(continued on page 5)

## Faith Colas:

"Dear Milwaukee Students:

"Be the good you want to see! It's great to be good at everything you do, especially in your studies.

"Think of education as your first career. The first job experience will lead you to the best career or help you start our own business.

"Let your first career—education—be your business card, demonstrating your commitment and dedication to yourself, your family and the community.

(continued on page 5)

## "John Daniels, Jr.:

"We frequently heard the admonition that no one can take the power of education from an individual.

"As we commence on yet another school year, it is a great opportunity to embrace the power of education much the way that Dr. Rolland Pattillo has done in helping to save the lives of so many people."

**Atty. John Daniels, Jr.**—Chairman Emeritus with Quarles & Brady LLP

## Cavalier Johnson:

Milwaukee's students of today are our community's future.

That is a fact that I hope that our youth take to heart. Your actions and decisions today will determine what sort of city we will be tomorrow.

So study hard and give your best effort. Work hard and keep your focus.

No matter what doubters may throw your way know deep down that you are worthy and that you have all of the tools that you need to succeed.

(continued on page 5)

## Larry Waters:

Dear Students,

Welcome back to the start of a new school year where you still face unique circumstances, to say the least.

Despite what you may face, I am filled with hope for the coming school year.

Each student must take advantage of every opportunity that helps them to develop the essential capacities of resilience and recovery from the unplanned setbacks encountered during the last school year.

I encourage every student to embrace any challenges they may encounter as opportunity.

# The Importance of Awareness

Being unprepared and unaware in a situation can be unfortunate and quite irritating.

Everyone has had an experience where they have been thrown into something without having received the necessary information to excel.

No matter how big or small the situation, the feeling of uncertainty associated with those kind of circumstances affects you in a negative way.

There is so much going on in today's time. Everyday there are changes happening in society, education, health, and finances etc.

With our children going back to school it would benefit them most to have a clear every day understanding of how the world is changing around them.

The biggest tip to remember when returning our children to school, is to make them aware of what is really going on out there.

We are living in a time where being too close to the wrong person, can be seriously dangerous and even sometimes, fatal.

Children and young adults live in a different world internally and may not truly understand what it really means to

By Paishance Welch

protect themselves from Covid-19.

Conversations about social distancing, disinfecting, not sharing personal items of peers and family, are good ways to keep the caution in the back of their minds.

School procedures and activities have all been negatively impacted since the virus has taken its place in our world. It is very important to keep our young ones in tune and aware.

In addition to making and keeping students aware, another big tip to remember is to make it relatable to the age level of your child when these everyday conversations are being had.

Michelle Flores (GA) shared her trick for how she makes educating her son a fun routine. By doing this, he'll remember the importance of staying healthy when returning to school:

"... Some tips I do with Jr. (7) now to keep him safe and from getting sick. Is one- put a clean mask on him every day [he goes] to school.

He has his hand sanitizer clipped to his bag (which he thinks is so cool) I always make

sure he has it full!

Also every night and morning I make him gargle Listerine..."

What a great way to bring awareness Michelle!

Finally, always educate! Since this virus could mutate, many parents are concerned about their child even returning to school.

Regardless of the mask mandates and vaccination services, some parents are in favor of virtual learning as the only form of education now.

Educating your students in class and at home on the latest public safety news can help them stay prepared.

Helping them understand how this virus works allows them a fair opportunity to be proactive with their everyday safety.

Of course, the mission isn't to sound scary or panicky, but it is to shed light on what it means to really be aware.

As we grow and pass on, we must always keep in mind that our children are our future. What better way to have a clear future than to prepare and awaken those that carry it themselves?

## Nine Things to Know About the 2021-2022 School Year

It's almost time to return to the classroom already! I hope that your family's summer has been filled with fun and relaxation.

The start of a new school year is always an exciting time with the hustle and bustle of preparing school supplies, planning to see school friends, and most importantly - setting goals for your child's education.

Here are nine things that you should know about the 2021-2022 school year!

### 1. School Calendars for 2021-2022

Early Start schools begin Monday, August 16, 2021. Traditional Start schools begin Thursday, September 2, 2021. Our early start and traditional school calendars are available in multiple languages. Our contract schools may follow different calendars. Download your calendar by visiting our calendar webpage.

### 2. What to Expect

- All MPS schools will be open for in-person learning five days per week.
- School buildings will be open to the public, and families should contact the school office to schedule a visit.
- MPS will require face coverings to be worn in all buildings, schools, and on buses. Face coverings will not be required outdoors or while individuals are eating or drinking.
- Students and staff will practice three feet physical distance, and classrooms and common areas will have a HEPA filter.

## It's 'Back-To-School!'

(continued from front page)

know the importance of school and education. "Education continues for a lifetime," a Mother was heard to say.

Friends and conversations, competition and exploration, learning interests and determining new goals, are all a part of going to school and our students are ready!

Parents bringing their little ones to teachers in Pre-K or elementary find it hard to turn around and let them go. But in just a few years, their children will be going off to college.

That's how fast time flies. And a good education is the JOB of THE PARENT AND THE JOB for THE CHILD...until he/she is able to hold a job....or create their own.

So bring on the bells, bring on the buses, bring on the homework and the tests.

IT'S TIME TO GO BACK TO SCHOOL WISHING YOU A GREAT SCHOOL YEAR!! MASKS AND SOCIAL DISTANCING AND GOOD HYGIENE IS STILL IMPORTANT.

MPS MANDATES MASKS (POEM) 'MASK UP'

MASK UP! WASH YOUR HANDS, SAN-

ITIZE and LIVE AND LEARN,

Mask Up! Wash your hands, 6 feet apart.

LIVE AND LEARN,

MASK UP! mask up! SOCIAL DISTANCE too, MASK UP EVERYONE and LIVE LOVE and LEARN.

WITH MISINFORMATION AND TRADITIONAL TIMIDITY ABOUT SHOTS PLUS A LONGSTANDING ANXIETY ABOUT GOVERNMENT OWNED CLINICS AND COLLECTIONS, WE'RE STILL READY FOR SCHOOL.

MANY STUDENTS WILL STILL GET THEIR SHOTS, THEY'VE WATCHED FAMILY AND FRIENDS SUFFER WITH COVID BECAUSE THEY WERE UNVACCINATED.

MORAL OF THIS STORY...PROTECT YOURSELF, YOUR PARENTS, YOUR LOVED ONES AND YOUR NEIGHBOR.

HERD IMMUNITY NIPS THE VIRUS IN THE BUD. DON'T be AFRAID OF THE SHOT.

COVID-19 IS NOT A RESPECTER OF PERSON... MONEY...OR WHERE YOU LIVE.

COVID SPREADS TO ANYONE AND EVERYONE.

COVID TARGETS THOSE WITH THE WEAKEST IMMUNE SYSTEMS.

SO GET YOUR SHOTS...IF YOU ARE 12 YEARS AND ABOVE.

AND, LISTEN TO THE BELLS....THE SCHOOL BELLS. It's going to be an amazing school year.

School bells ring and children sing, "It's back to school....again. Have a fabulous year.

**"For every one of us that succeeds, it's because there's somebody there to show you the way out. The light doesn't always necessarily have to be in your family; for me it was teachers and school."**

# Words of Encouragement to MPS Students

(continued from page 3)

"Keep your mind a fertile ground of creativity and not a dumping ground for trash, which is usually damaging, worthless and unuseful!

"When we fail to learn and learn effectively we fail to grow. Be a life long learner and be fearless and unafraid of the unknown.

Endeavor, to learn more and more every day and strive to grow higher and higher! Because, truly, the sky is the limit. Soar high and never give up on your dreams!

Press your way to be as successful as you possibly can be without sacrificing your integrity, morals, or your character.

Finally, I'd like to leave with you the infamous quote from the Black Negro College Fund "A mind is a terrible thing to waste!"

Good luck!"

The options are endless, and the road is diverse. Your dreams may require college, the construction trades, skilled industries, or entrepreneurship.

Dream big and take the forward step, then continue to put one foot in front of the other.

A few tips to remember:

1. Stay close to people that will encourage and fuel your dreams.
2. Stay inquisitive. Ask many questions.
3. Stay persistent and speak well of yourself.
4. The world is your oyster. You are enough.

# Things Parents Should Know Sending Their Kids Back to School

By Breonna Randall, Howard University News Service

For the first time since March 2020, millions of students, pre-kinder-garten to high school seniors, will be attending in-person classes.

Aside from attending class, they will be also participating in extracurricular activities, like sports, music and clubs.

Parents have many concerns and questions. Howard University News Service reached out to five physicians for answers, Dr. Hadie Shariat, pediatrician, Howard University Hospital; Dr. Katherine Hager, Infectious Disease Fellow, Howard University Hospital; Dr. Catherine Marshall, pediatrician at Balboa Pediatrics; Dr. Andrea Goings, pediatrician, Baby Doc House Calls, and Dr. Stacey Eadie, pediatrician at her own private practice, Peds in a Pod.

**Should I get my child vaccinated?**

The unanimous opinion among our doctors was if your child can get vaccinated, they should. The only thing that has proven to be effective so far in fighting COVID-19 is the vaccine, they said. While a tiny fraction of people has died from the vaccine, more than 600,000 have died from the disease. Children under the age of 12 cannot be vaccinated, though pharmaceutical companies are working on a vaccine for them.

**What if my child is too young for the vaccine?**

In this case, the doctors advise, your child should stay away from unvaccinated adults, stay away from crowded indoor places, always wear a mask and keep practicing social distancing and good hygiene. Also always remember to keep up with your local safety guidelines. Guidelines and prevalence of coronavirus are different in different cities and states. Residents may need to be more careful in some locales.

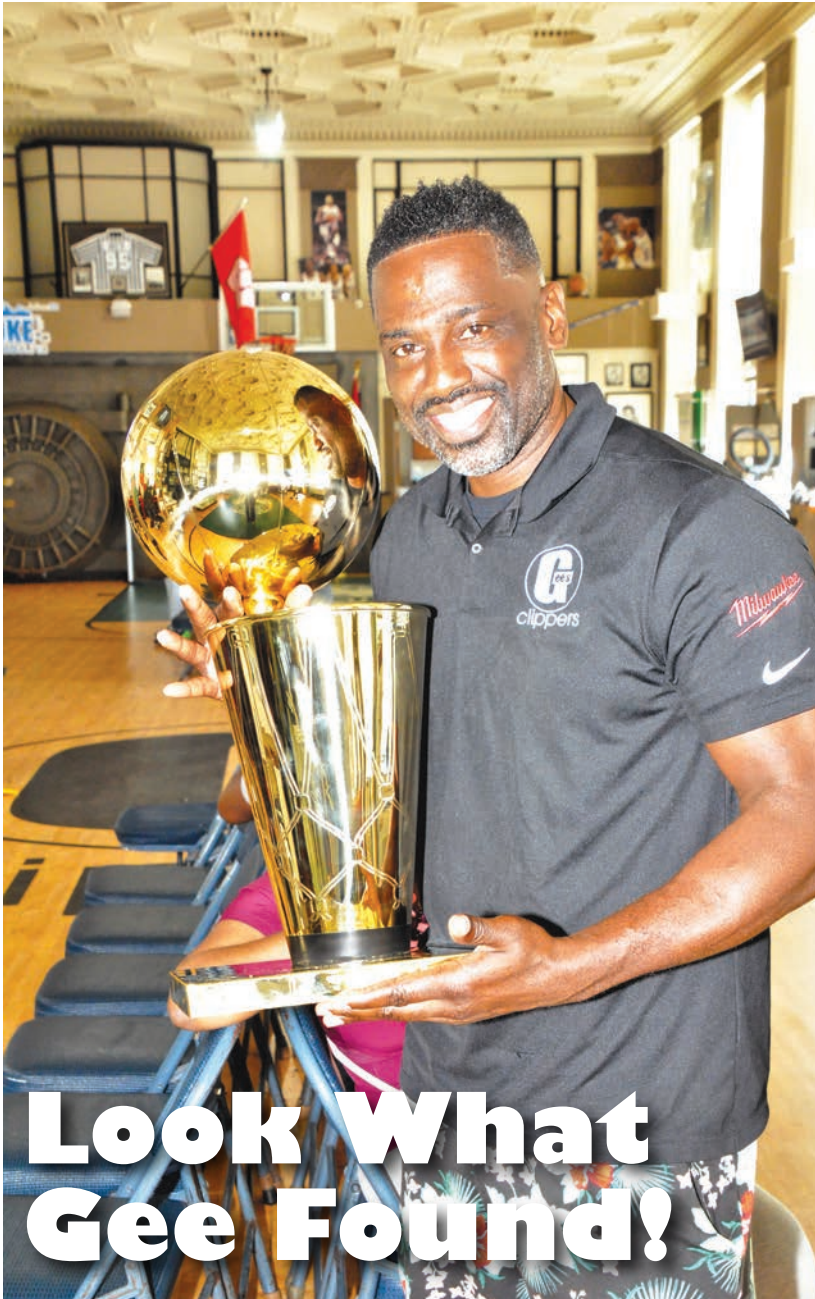

**What kind of mask should my child wear and how many do they need?**

The readily available blue and white surgical masks are the best op-

tion for students of all ages. They will protect your child if they are wearing them properly. The mask should cover their nose and their mouth. If the mask falls to the ground or gets wet either by sneezing into it or from water, they should be dis-

carded, and a new mask put in place. Younger children should carry about a half a dozen surgical masks with them a day.

Students in grades 9-12 should not need to change theirs as often. They may only need to have about three.

## Look What Gee Found!

Weeeeelllllll....Gaulien (Gee) Smith (the owner and proprietor of ‘Gee’s Clippers’) didn’t ‘find’ the Larry Fitzgerald NBA World Championship Trophy...No! He was ‘lent’ the trophy by Milwaukee Bucks star and 2021 NBA Finals MVP Giannis Antetokounmpo, who stopped by his favorite barbershop to let Gee and the other barbers...and customers...see, touch, and pose with the trophy the Bucks won in six games against the Phoenix Suns almost two months ago. We don’t know how long Gee can hold on to it (or, if he still has it!) so you better get down to Gee’s now!—Photo by Yvonne Kemp

For older children doubling up by wearing a surgical mask and a cloth mask on top throughout their school day is the best option.

If your child is most comfortable wearing only a cloth mask, that is fine, but remember it needs to be cleaned daily, never wait more than a day to clean or rotate your child’s cloth mask. N-95 masks are said to be the best option, but only if they have been fit tested by a doctor to a child’s face. Children with disabilities who are not able to wear a mask all day should wear a shield.

**What should be on my back-to-school shopping list?**

You should buy everything that you would already get but more. Make sure your child has more than enough supplies, so they won’t need to ask their classmates to share. Young children like to chew on their pens and sharing those supplies could increase the spread of germs. Aside from masks, you may want to add new items like hand sanitizer and disinfectant wipes.

**What are some school habits my child needs to break and new ones they should include?**

The number one habit that children

of all ages need to break is sharing. They should not share toys, school supplies, food, drinks or anything else. It won’t be easy to get young children to unlearn “sharing is caring,” but it is very important that they try their best.

Other habits that students need to break is any unnecessary touching. Hugging or kissing other students is a no-no. Students have been away from their friends for a very long time, and they may want to show physical affection towards each other when they reunite but it is very important that they don’t as much as possible.

They should also use disinfectant wipes to clean their desks between classes and the handles and locks to their lockers. Finally, most schools do not have automatic sinks or dryers. So, students should consider using paper towels to turn handles off and on and opening doors after washing their hands for at least 20 seconds.

**Are there warning signs that my child may have been exposed to the coronavirus?**

Children, especially younger children, seem to always have a sniffle or

runny nose. However, in today’s climate, it’s better to be safe than sorry. Every day after you child comes home, spend two minutes with your child and let them tell you about their day without asking any specific questions. In that time, they may tell you if they shared toys or snacks with anyone that they shouldn’t have. If your child is having a cough or runny nose, yes it could be allergies or a common cold, but do not risk the safety of your family and others. Keep your children home and quarantine them until they can take a Covid-19 test at a medical facility, not an at home rapid test. A two-year old may get sick and have just a runny nose or sore throat from the disease, but if they infect their grandmother, for example, she could end up in the hospital on a ventilator.

**Are extracurricular activities okay for my child to participate in?**

There is nothing wrong with your child returning to their extracurricular activities, just as long as these activities are supervised and are following all Center for Disease Control and Prevention and local health guidelines.
